A Neighborhood City

COVID-19 Weekly Update – July 23, 2020

- Since the record high of new daily cases reported on July 15(10,791), The Texas Department of Health Services data indicates a very slight downward trend in the last week both in new cases and in the statewide positivity rate. On July 22, 9,879 new cases were reported in Texas and the positivity rate had dropped to 14.18%. Meanwhile the Texas Medical Center reports a 7 day average positivity rate for the Greater Houston Area to be 20.1%.
- As of July 21, the Texas Medical Center reports that Phase I ICU capacity is full and they are 15% into Phase II capacity with no expectations of exceeding Phase II capacity within the next 2 weeks.
- Harris County Public Health data indicates West U has 29 “confirmed” cases, 25 of these cases have “recovered” and 4 are still “active”.
