

City of
**West University
Place**

Public Works Department

December 2, 2022

Dear Property Owner,

The City of West University Place would like to update you on the progress of the Law Street Water Line Project. The residents on the 4100 & 4200 block of Law Street currently receive their water from the City of Houston. This project will consist of the installation of a 4” water line to allow these blocks to be serviced by the City of West University Places water distribution system. At this time, the project design plans have been approved by the City of Houston and we will be moving forward with the bid phase of this project. We anticipate construction to begin in early 2023. More updates will be available in the coming weeks.
